

# COVID-19 Vaccine

## Third Dose or Booster Guide

Be Sure to Bring your  
CDC Vaccination Record Card!

### Have you received two doses of the Pfizer or Moderna COVID-19 vaccine?

You are eligible to receive a Pfizer or Moderna COVID-19 booster vaccination if you are:

- 65+ years old
- 18+ years old and:
  - Reside in a long-term care facility, or
  - Have underlying medical conditions, or
  - Are at increased risk at your work or living space
- 12+ years old and moderately to severely immunocompromised (Pfizer only)
- Vaccinated six or more months ago

### Have you received one dose of the Johnson & Johnson COVID-19 vaccine?

You are eligible to receive a Johnson & Johnson COVID-19 booster vaccination if you are:

- 18+ years old and who were vaccinated two or more months ago

### Can you receive a different vaccine from your initial series?

If the same vaccine is not available, a mixed series of mRNA COVID-19 or a dose of Janssen COVID-19 vaccine may be administered spaced appropriately for boosters.

### If you DO NOT meet the guidelines above:

At this time, there is not enough data to prove an additional dose will benefit you.
